

ANTISEPTIC Hand STAND

CALLAHEAD's **HAND STAND** is a portable hand sanitizer rental to help eliminate the spread of germs at any location. The **HAND STAND** is designed and manufactured by CALLAHEAD to protect the public from harmful germs and bacterial for a healthy environment. The dispenser is securely mounted on it's own stand so it can be placed in any location. With the **HAND STAND** you will not need to worry about mounting anything to the wall and the **HAND STAND** can be placed in any open area. Because the **HAND STAND** is maintained by CALLAHEAD you don't have to worry about maintenance either. Shopping malls, restaurants, medical buildings, government facilities, parking garages, hotels, subway and train stations, and office buildings are just a few of the locations where hand sanitizing capabilities are required to reduce the spread of germ causing illnesses. The **HAND STAND** portable hand sanitizing station delivers the best hygienic protection for locations with large crowds, where sinks are not available or portable sinks are not an option. The **HAND STAND** also provides remote locations hospital grade hand sanitizing for either long-term or short-term rental needs.

The Hand Stand Sanitizer Dispenser is Essential in Office and Business Settings

Sleek Modern Design Blends in With Any Décor, Classic or Modern

The **HAND STAND** is constructed of durable silver powder coated steel with a heavy 16" x 16" base to keep it in place. The dispenser stands just 40" from the ground to the push button valve for easy hand accessibility. The stand is equipped with an 800ml dispenser filled with hospital grade antiseptic gel. CALLAHEAD's hand sanitizer gel kills over 99.9% of germs and contains vitamin E. Our **HAND STAND** dispenser holds 27 fluid ounces. Users will receive .544 grams of hospital grade hand sanitizer at each pump providing approximately 1,300 uses before refills are required. Beneath the sanitizer dispenser is also a drip catcher to help keep the area drip-free. The **HAND STAND** is a very sturdy 19-pounds.

The **HAND STAND** will be appreciated by the public at every social gathering. The antibacterial dispenser is mounted on the **HAND STAND** with a decorative CALLAHEAD specialty designed sign above. The eye catching two handprints will attract attention to encourage use. Small children will also want to use the **HAND STAND** antibacterial stand at schools, parks and playgrounds. CALLAHEAD's **HAND STAND** is ideal for food trucks, churches and synagogues, gyms, special events and outdoor food venues too. The dispenser has a clear acrylic refill indicator for convenience. CALLAHEAD offers refill service daily, weekly, monthly or on-call when needed.

Hand sanitizers are increasingly necessary as we have become more educated with the health benefits of antibacterial gels. Colds, flu's, Coronavirus, H1N1, COVID-19, SARS, E-Coli, Salmonella, and other common illnesses are often spread by the transfer of germs through touch and hand to hand contact. You will reduce the risk of illness considerably by washing your hands or using hand sanitizers frequently throughout the day. CALLAHEAD's **HAND STAND** is the perfect answer for every public location. When you rent the **HAND STAND** from CALLAHEAD you won't have to worry about maintenance either. Not only is **HAND STAND** easy to use, it is easy to maintain because CALLAHEAD provides the antiseptic gel that kills 99.9% of germs and bacteria. Refills are also available daily, weekly, monthly or upon request. CALLAHEAD's hospital grade antibacterial gel kills 99.9% of germs that can cause serious illnesses.

The **HAND STAND** is perfect for any public area including valet stands, outside public restrooms, by elevators and escalators, food courts, and building entries. Germs are easily transmitted from frequently touched surfaces such as door knobs and handles, handrails, elevator buttons, and light switches. Bacteria and viruses can stay on metal, plastic and cardboard for several days. These frequently touched surfaces can quickly spread viruses by your hands touching any contaminated surface. The **HAND STAND** will help you provide a healthy environment whether it is long-term rental job-site or a short-term event such as a block party, wedding, festival, graduation, concert or sporting event. Placing the **HAND STAND** by door entrances and exits of any business or public building can help eliminate the spread of germs inside.

Supermarket entry and exit areas, check-out stands and cashier stations will benefit from the **HAND STAND** antibacterial stand. For the public's hygienic protection the **HAND STAND** is the answer for peace of mind for visitors, staff and guests to know extra safety measure are in place for an overall healthy environment.

The **HAND STAND** will benefit first responders and medical staff for emergency situations. Hand sanitizing is necessary to eliminate the spread of germs before serving the public. Hand sanitizing is strongly recommended by the Center for Disease Control (CDC) for everyone every time you use the restroom, cough, sneeze, before and after eating, preparing food, and should be done periodically throughout the day to help avoid contact with harmful germs and bacteria that can cause serious illness.

Publications by The Center for Disease Control (CDC) and The Occupational Safety and Health Act (OSHA) conclude that handwashing is proven protection from the spread of many serious illnesses. Presented with this information confirms handwashing or sanitizing equipment is essential for every business, construction job site, public setting, and special event. Just a pump of gel and rub your hands together, our quick drying sanitizer will protect users from harmful diseases and infections that are commonly spread through hand-to-hand contact. CALLAHEAD, along with the CDC recommends that hand sanitizers or handwashing facilities are a requirement for every business and public venue such as, construction job sites, sporting facilities, arenas, beaches, parks, parties, farmer's markets, carnivals, playgrounds, schools, daycare facilities, marathons, fundraisers etc.

The **HAND STAND** rental is available for same-day delivery. CALLAHEAD services all of New York City's five boroughs of Manhattan, Brooklyn, Queens, the Bronx and Staten Island, Westchester County and all of Nassau and Suffolk Counties on Long Island to Montauk Point.

BENEFITS OF CALLAHEAD's HAND STAND ANTISEPTIC STAND: More accessible than sinks • Portable antibacterial stand with on easy to use dispenser • Reduce bacterial counts on hands • Requires less time than hand washing • Acts quickly to kill microorganisms on hand • Less irritating to skin than soap and water • No sink, no water, no rinse, no towel & no mess • Meets OSHA and Health Department hand cleansing requirements • Soothing rich emollients such as Vitamin E help to keep hands soft even after repeated use

HAND SANITIZER TECHNIQUE: 1. Make sure all organic matter is removed from hands. All visible organic matter (for example: dirt) should be removed from hands prior to applying waterless hand sanitizer. 2. Apply a dime sized amount of waterless hand sanitizer to the palm of one hand or use a waterless hand sanitizer wipe. 3. Rub hands together covering all surfaces of hands and fingers. 4. Rub until waterless hand sanitizer is absorbed.

IMPORTANT SAFETY AND HEALTH FACTS: The Center for Disease Control (CDC) affirms, "Keeping hands clean is one of the most important steps we can take to avoid getting sick and spreading germs to others." • The Occupational Safety and Health Act (OSHA) require employers to provide adequate washing facilities for employees that work with contaminants that may be harmful. • The Association for professionals in Infection Control and Epidemiology (APCI) position, "Although people usually think that germs are spread through the air, the fact is that germs are most easily spread through HAND CONTACT." AND "One of the best ways to avoid getting sick or spreading illness is to wash OR to decontaminate your hands." • The Center for Construction Research and Training (CPWR) states, "Lack of cleaning facilities on construction job sites increases the likelihood of dermatitis, caustic burns from extended contact with wet cement, or acid burns from muriatic acid or other hazardous agents that come in contact with the skin, and infection." The result, additional workers' compensation claims. • The Center for Disease Control (CDC) estimates that 36,000 people die from the flu or flu-like illness each year, and another 5,000 people die from food borne illness each year. And your best protection from this type of illness is frequent hand washing.
